

Thank you for choosing us, we appreciate your decision to partner with NeedToBePro LLC for your hosting requirements. ***Keep in mind that running this script will uninstall Pterodactyl Panel, NGINX Web-Server, and Wings Configuration entirely from your server.***

Running the Script:

1. Upload the Pterodactyl-Remover.sh file to your VPS/Dedicated Server.
2. Grant execution permissions using the command: `sudo chmod +x <path/to/your/Pterodactyl-Remover.sh>`
3. Execute the script by running: `./Pterodactyl-Remover.sh`
4. Follow the instructions on the screen to proceed.
5. If you've utilized our script to install the Pterodactyl Panel, you will receive a prompt to delete the database. The database credentials are as follows:

Username: pterodactyl
Password: tJNR3yLD7Zm2vu8BPCQpgE
Database Name: Panel

Support:

For any assistance with the removing process and/or any questions, please do not hesitate to contact us at support@needtobepro.com, or at www.billing.needtobepro.com
We value your choice and anticipate the opportunity to support your hosting requirements effectively.
