

Thank you for choosing us, we appreciate your decision to partner with VS-Shop for your scripting requirements. To facilitate a smooth panel installation on your server, kindly follow the provided steps. Please be advised: for optimal results, ensure your system has a fresh Operating System Installation to prevent any potential errors or overwrites.

Service-Starter Steps:

1. Upload the pterodactyl-panel-installer.sh file to your VPS/Dedicated Server.
2. Install dos2unix by executing **sudo apt-get install dos2unix**
3. Convert the script from Unix to Linux based by executing **dos2unix <path/to/your/service-starter>**.
4. Give the script executing permission with **chmod +x <path/to/your/service-starter>**.
5. Run the Script with **<path/to/your/service-starter>**.
6. This will remove all of the Pterodactyl components.

Support:

For any assistance with the installations and/or any questions, please do not hesitate to contact me at me@anthony-morales.online, or by visiting our [Privacy Policy](#) page for more information. We value your choice and anticipate the opportunity to support your hosting requirements effectively.
