

Thank you for choosing us, we appreciate your decision to partner with VS-Shop for your scripting requirements. To facilitate a smooth panel installation on your server, kindly follow the provided steps. Please be advised: for optimal results, ensure your system has a fresh Operating System Installation to prevent any potential errors or overwrites.

Panel Installation Steps:

1. Upload the **pufferpanel-installer** file to your VPS/Dedicated Server.
2. Grant execution permissions using the command: “ **sudo chmod +x <path/to/your/pterodactyl-panel-installer>** ”
3. Execute the script by running: **./pufferpanel-installer**
4. The installation process will commence, configuring and installing all necessary components for your PufferPanel Setup.

If you need any assistance, please do not hesitate to let me know!

Support:

For any assistance with the installations and/or any questions, please do not hesitate to contact me at me@anthony-morales.online, or by visiting our [Privacy Policy](#) page for more information. We value your choice and anticipate the opportunity to support your hosting requirements effectively.
