

Thank you for choosing the Creative Server Installer, proudly brought to you by VS-Shop. Your support means a great deal to us! To get started with the script, please follow the steps outlined below:

Step 1: Upload the script (`Creative_v{version}.sh`) to your preferred Ubuntu server.

Step 1.1: Convert the script to the unix type by executing: `dos2unix /Creative_v{version}.sh`

Step 2: Grant the script executable permissions by running the following command: `chmod +x /Creative_v{version}.sh`

Step 3: Execute the script with elevated permissions using: `sudo ./Creative_v{version}.sh`

Step 3.1: Follow the on-screen instructions to complete your installation!

We appreciate your trust in our tools and look forward to your success with your Creative server!

End File.
