

Thank you for choosing the OPPrison Server Installer. Your support means a great deal to us! To get started with the script, please follow the steps outlined instructions below:

Step 1: Upload the script (`OPPrison_v{version}.sh`) to your preferred Ubuntu server.

Step 1.1: Convert the script to the unix type by executing: `dos2unix /OPPrison_v{version}.sh`

Step 2: Grant the script executable permissions by running the following command: `chmod +x /OPPrison_v{version}.sh`

Step 3: Execute the script with elevated permissions using: `sudo ./OPPrison_v{version}.sh`

Step 3.1: Follow the on-screen instructions to complete your installation!
