Thank you for choosing us, we appreciate your decision to partner with VS-Shop for your scripting requirements. To facilitate a smooth panel installation on your server, kindly follow the provided steps. Please be advised: for optimal results, ensure your system has a fresh Operating System Installation to prevent any potential errors or overwrites.

This is a non-SSL version Installation.

Pterodactyl Panel Installation Steps:

1. Upload the pterodactyl-panel-installer.sh file to your VPS/Dedicated Server.
2. Install dos2unix by executing **sudo apt-get install dos2unix**
3. Convert the script from Unix to Linux based by executing **dos2unix <path/to/your/pterodactyl-panel-installer.sh>**.
4. Give the script executing permission with **chmod +x <path/to/your/pterodactyl-panel-installer.sh>**.
5. Run the Script with **<path/to/your/pterodactyl-panel-installer.sh>**.
6. Make sure to **change database password**, as by default it sets it to "**yourPassword**"
7. Change the Pterodactyl Domain in **/etc/nginx/sites-available/pterodactyl.conf**
8. If the script ran successfully, you may proceed with the installation of Pterodactyl Wings Installer.

Pterodactyl Wings Installation Steps:

1. Upload the pterodactyl-wings-installer.sh file to your VPS/Dedicated Server.
2. Run the Script with **<path/to/your/pterodactyl-wings-installer.sh>**.

3. During the installation process, you will be prompted to configure the node's settings. Please make sure to complete this step once the message appears.

Support:

For any assistance with the installations and/or any questions, please do not hesitate to contact me at support@v-scripts.com, or by visiting our [Privacy Policy](#) page for more information. We value your choice and anticipate the opportunity to support your hosting requirements effectively.
