

Thank you for choosing us, we appreciate your decision to partner with VS-Shop for your scripting requirements. To facilitate a smooth panel installation on your server, kindly follow the provided steps. Please be advised: for optimal results, ensure your system has a fresh Operating System Installation to prevent any potential errors or overwrites.

1. Simply place the **phpMyAdmin-Installer.sh** file onto your VPS/Dedicated Server.
2. Grant execution permission using the command: `sudo "chmod +x <path/to/your/phpMyAdmin-Installer.sh> "`
3. Execute the script by running: `./phpMyAdmin-Installer.sh`
4. Choose **Apache2** when prompted.
5. Choose **"Yes"** for Configure database for phpMyAdmin with **dbconfig-common**, and set the password!

If you need any assistance, feel free to contact us at support@justlovetoday.com. We appreciate your choice and look forward to assisting you with your scripting needs!
